## Specialty Care, Close to Home

Fairview Northland Medical Center is a multispecialty medical center offering the highest quality medical care to you and your family. Best of all, we are close to home. Since 1993, Fairview Northland has served our community with specialists in many disciplines, from heart and cancer care to trauma and surgery.

Conveniently located on Hwy. 169 in Princeton, Fairview Northland serves a broad community, including Princeton and the surrounding area. Together with Fairview Clinics in Princeton, Zimmerman, Elk River, Milaca, Rogers and, opening soon - St. Francis, we provide primary and specialty medical services to meet the needs of our growing and changing communities.

## We're Recognized for Outstanding Patient Care

- National Premier Quality Award winner for heart care, care for people with pneumonia and for how we ensure safe patient hand-offs.
- National Institute for Healthcare Improvement award winner for improving the way we track patients' medications before, during and after hospitalizations.
- State-wide Bridges to Excellence Award winner for diabetes management and care for veins and arteries (vascular.)
- Named the state's Best Value Hospital by Minnesota 2020, a non-partisan think tank.
- Designated a Blue Distinction Center for Knee and Hip Replacement<sup>SM</sup> by the Blue Cross and Blue Shield Association.

### The Birthplace

Your baby's birth at Fairview Northland Medical Center is special, and our physicians and staff ensure that you and your little one receive the best care possible. The Birthplace features private rooms for labor, delivery and recovery, large rooms to accommodate your family and an infant security system to protect your baby. Our state-of-the-art birthing beds and dedicated operating room for C-sections and emergency procedures gives patients comfort and peace of mind. Our medical staff has advanced training in delivering multiples and in lactation consultation.

### Pediatric care

Children and families come to Fairview Northland with high expectations. That's why we work closely with your family to ensure you have a positive experience. With child-friendly rooms and pediatric specialists, Fairview Northland treats children of any age who are hospitalized for conditions such as breathing difficulties, concussions or surgery.

### Cancer care

Fairview Northland Medical Center and University of Minnesota Physicians work together to bring state-of-the-art cancer diagnosis, treatment and related services to residents of central Minnesota. At Fairview Northland a multidisciplinary team of medical professionals provide cancer patients and their families with convenient, comprehensive, individualized care delivered with compassion and understanding.

Here, our physicians and staff with advanced training provide medical oncology, chemotherapy, care management and infusion therapy services. At the Fairview Northland Oncology Clinic and Infusion Therapy Center, teamwork ensures coordination of care throughout the patient's journey. Our on-site pharmacy, rehabilitation, state-of-the-art imaging, including PET/CT, and other services mean you can get the specialty care you need, close to home. Patients needing radiation therapy can be seen at Fairview Maple Grove Medical Center, ensuring coordination of care.

### Surgical services

The Surgical Services Department at Fairview Northland Medical Center provides general and specialty surgeries to people in and around the Princeton area. These include a wide range of surgeries, from total joint knee or hip replacement to tonsillectomies and laparoscopic procedures, such as hernia repair and gall bladder removal. Our three operating rooms feature state-of-the-art, minimally invasive equipment. We also have a dedicated obstetrical operating room and two rooms for procedures, such as endoscopies.

### Emergency services

Fairview Northland Medical Center provides exceptional emergency and trauma care 24-hours-a-day, every day. We offer complete emergency services, including state-of-the-art resuscitation equipment, an intensive care unit, on-site surgical staff and MRI, X-ray and CT scanners to quickly and accurately diagnose illness or injury. We are recognized nationally as a Premier Award for Quality winner for the treatment of heart attacks and pneumonia. Our staff has advanced training in emergency and trauma care.

*Fairview Northland is part of Fairview Health Services, a non-profit healthcare system providing exceptional clinical care—from prevention of illness and injury to care for the most complex medical conditions. Fairview's continuum includes 42 primary care clinics, a wide range of specialty services, home care and senior services. Fairview owns seven hospitals, including the University of Minnesota Medical Center, Fairview. Whether your newborn needs advanced care in the neonatal intensive care unit (NICU) or you or a family member suffer a serious illness such as cancer or stroke that require complex medical care, Fairview Northland Medical Center and its partner hospitals and clinics work to achieve our vision: to be the best health care delivery system for America, in partnership with the University of Minnesota.*
